Key Information Document

Purpose

This document provides you with key information about this product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product name:	**Dual Currency Deposit (Flip Deposit)**
PRIIP manufacturer:	DNB Bank ASA
Website:	www.dnb.no/markets
Telephone:	+47 91 50 48 00
Regulated by:	The Financial Supervisory Authority of Norway is responsible for supervising DNB Bank ASA in relation to this Key information Document
Produced:	22/11/2026

You are about to enter into a product that is not simple and may be difficult to understand.

What is this product?

Type

This product is an over the counter (OTC) contract – Dual Currency Deposit (Flip Deposit)

Term

The maturity of this product is in 3 months. No party is entitled to terminate it unilaterally. Therefore, early termination of the contract is not possible.

Objectives

The purpose of the product is to give the investor the right and obligation to the outcome of the structure according to terms agreed in advance.
This deposit is designed to provide the investor with a deposit rate in EUR which is above the money market level. In addition, the investor is exposed to the level of the EUR/SEK compared to the flip level at expiry. If the SEK depreciates against the EUR and is above the flip level, the investor receives back the deposit in SEK. If the EUR/SEK is below the flip level, the investor receives back the deposit in EUR.
The investor will participate in any price development in the underlying. In other words, the investor will profit if the currency being bought strengthens against the currency being sold, or lose in the event of an opposite development.
The product involves the following cash flows:
On the observation date:

i. If the underlying appreciates, for example, where the exchange rate between investment currency and base currency is above the strike of 1 SEK = 11.1557 EUR, you will receive the accrued interest of 7.97 % p.a. in the investment currency and the principal amount (the investment amount), converted to base currency, at a previously agreed strike rate of 1 SEK = 11.1557 EUR.
ii. Otherwise, where the exchange rate between SEK and EUR is at or below the strike of 1 SEK = 11.1557 EUR, you will receive the investment amount plus the accrued interest of 7.97 % p.a. in the investment currency.

Settlement takes place only on the maturity date of the product, and if the investment currency appreciates significantly against the base currency, the investor might bear a significant potential loss due to the difference between the strike and the market price at the observation date. The valuation of the transaction depends on the market value of the underlying.

The amount invested is pledged for the entire duration of the product in order to guarantee any possible claim of the Bank.

The Key Information Document does not contain information related to your specific trade in the product, and is intended only as an example.

Base currency	EUR	**Price Currency**	SEK
Notional	10,000.00 EUR	**Strike price**	11.1557
Coupon	7.97 %	**Settlement Date**	23/02/2027
Redemption Date	23/02/2027	**Observation Date**	23/02/2027

Intended retail investor

The product is intended for retail investors who:

i) wish a deposit with an above market rate coupon, but is indifferent to which of the two currencies which is repaid at maturity
ii) intend to hold the product for the recommended investment horizon (throughout the term/until maturity)
iii) have knowledge and experience with this product
iv) are willing and able to bear losses
v) do not need products with capital protection

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product until the agreed settlement date.
You may not be able to end your product early. You may have to pay significant extra costs to end your product early.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of DNB Bank ASA to pay you. **Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.** This product does not include any protection from future market performance so you could incur significant losses. If we are not able to pay you what is owed, you could incur significant losses.

Performance scenarios
What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended Holding Period:	**23/02/2027**	
Example Nominal Amount (*):	**EUR 10,000.00**	
Scenarios		**If you exit at the Recommended Holding Period**
Minimum	**199.00 EUR. The return is only guaranteed if you hold the product to maturity. You could lose part or all of your investment.**	
Stress	**What you might get back or pay after costs**	8,767.00 EUR
	Average return / loss over nominal amount	-12.33 %
Unfavourable	**What you might get back or pay after costs**	9,769.00 EUR
	Average return / loss over nominal amount	-2.31 %
Moderate	**What you might get back or pay after costs**	10,167.00 EUR
	Average return / loss over nominal amount	1.67 %
Favourable	**What you might get back or pay after costs**	10,199.00 EUR
	Average return / loss over nominal amount	1.99 %

The scenarios presented are an estimate of future performance based on past experience of how the value of this product varies and are not an accurate indicator. What you get will vary depending on how the market develops and how long you keep the product.
The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor.
The figures do not take into account your personal tax situation, which may also affect how much you get back.
The stress scenario shows what you might get back in extreme market circumstances.
*** The calculation is based on the notional of the contract (in this example EUR 10,000.00).**

What happens if DNB Bank ASA is unable to pay out?

You are exposed to the risk that the Issuer might be unable to fulfil its obligations in respect of the product –e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. This may materially adversely affect the value of the product and could lead to significant losses in the product. This product is not subjected to any legal or other deposit protection scheme or any other form of guarantee.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your product.

Costs over time
The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example nominal amount and different possible investment periods.
We have assumed:

- You would get back the amount that you invested (0 % annual return).
- EUR 10,000.00 is invested.

	If you exit at the Recommended Holding Period
Total costs	70.00 EUR
Cost impact (*)(**)	0.70 %

(*) This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.
(**) This illustrates costs in relation to the notional value of the PRIIP.

Composition of costs

One-off costs upon entry or exit		If you exit at the Recommended Holding Period
Entry costs	These costs are included in the price of the product.	70.00 EUR
Exit costs	These costs are already included in the rates you get.	0.00 EUR
Ongoing costs		
Management fees and other administrative or operating costs	There is no management fee for this product.	0.00 EUR
Transaction costs	0 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0.00 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0.00 EUR

How long should I hold it and can I take money out early?

Recommended Holding Period: 3 months

This product is designed to be held to the agreed settlement date. This product cannot be easily ended. This means it is difficult to estimate how much you would get if you end before the end of the recommended holding period. You will either be unable to end early or you will have to pay high costs or make a large loss if you do so.

How can I complain?

Any complaint regarding the person advising on, or selling, the product can be submitted directly to that person. Any complaint regarding the product or the conduct of the issuer of this product can be submitted in text form to DNB Bank ASA under the following address: DNB Bank ASA P.O. Box 1600 Sentrum, N-0021 Oslo, attention: DNB Carnegie.

Other relevant information

Any additional documentation in relation to the product is published on the Issuer’s website (www.dnb.no). In order to obtain more detailed information - and in particular details of the structure of and risks associated with the product - you should read these documents. The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.
