What is this product?

Type: This product is an over the counter (OTC) contract – Foreign Exchange Instrument

Term: The term of this product is 1 month, and it is not recommended for early termination. However, the product is designed so that the investor can choose at its discretion the dates of partial or total settlement up to and including the expiration date of the agreement. Also, during the lifetime of the product, investor may make a direct settlement or a reverse agreement for the entire remaining amount.

Objectives: The purpose of this product is to provide protection from an adverse move in exchange rates. The client agrees to purchase a specific amount in one currency and to sell another currency at a specific exchange rate. The client may utilize this contract in parts but upon maturity, he has the obligation to settle the contract in full. The exchange rate is fixed irrespective of fluctuating market conditions.

The contract may result in profit or loss for the client, which depending on the prevailing exchange rate on settlement or maturity date. The return of the product is likely to differ from the scenarios provided in this document.

The risk indicator assumes you keep the product until the agreed settlement date.
You may not be able to end your product easily or you may have to end at a price that significantly impacts on how much you get back.

← Lower risk
Higher risk →

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 7 out of 7, which is the highest risk class. We classify all OTC derivatives as being of the highest risk class. This rates the potential losses from future performance at a very high level, and poor market conditions are unlikely to impact the capacity of Eurobank Limited to pay you. In some circumstances, you may be required to make further payments to pay for losses. **The total loss you may incur may significantly exceed the amount invested.** This product does not include any protection from future market performance so you could lose some or all of your investments. If we are not able to pay you what is owed, you could lose your entire investment. However, you may benefit from an Investor Compensation Fund (see section "What happens if the Bank is unable to pay out?"). The indicator shown above does not consider this protection.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended Holding Period:	1 month	
Example Nominal Amount (*):	EUR 10,000.00	
		If you end at the Recommended Holding Period
Scenarios		
Minimum	There is no minimum guaranteed return. You could lose part or all of your investment, or have to make further payments to cover your losses.	
Stress	What you might get back after costs	-1,056.00 EUR
	Percentage return	-10.56 %
Unfavourable	What you might get back after costs	-237.00 EUR
	Percentage return	-2.37 %
Moderate	What you might get back after costs	25.00 EUR
	Percentage return	0.25 %
Favourable	What you might get back after costs	294.00 EUR
	Percentage return	2.94 %

The above scenarios are forward-looking estimations based on past performance data and on certain assumptions and do not constitute an accurate measure. Markets could develop very differently in the future and actual return will vary depending on market returns during the investment holding period.

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor.

The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

This product cannot be easily ended. If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.

* The calculation is based on the notional of the contract (in this example EUR 10,000.00).

What happens if the Bank is unable to pay out?

In the case of insolvency or other failure of the Bank to meet its obligations arising from the agreement, the investor may suffer a total loss of their capital. In the event that the Bank is unable to fulfill its obligations with respect to this product, due to its financial circumstances, the investor who has been categorized as a retail client, may be entitled to compensation to some extent, from the Investor Compensation Fund (the "ICF") for Clients of Banks pursuant to applicable law, if the necessary preconditions, as defined by the legislation, are fulfilled. The

maximum amount of compensation payable to the investor, deemed as eligible for compensation, would amount to €20,000 (twenty thousand euros). The said coverage applies to the total amount of claims made by the investor to the Bank, irrespective of the number of accounts, the currency, and the place of provision of the investment service. General information on the ICF has been made available to the investor in the MIFID Information Package-Part 1: General Information Document (effective from 1st May 2023). Further information on the preconditions and formalities for the payment of the compensation may be found at the Bank's branches, as well as on the Bank's website at [Information-Package_PART-1_2025_05 .pdf \(eurobank.cy\)](#).
